

Diagnostics Endoscopic	03/2016	Gastroscopy Colonoscopy	Hp positive chronic gastritis no pathology
	04/18/2016	Gastroscopy	Hp negative chronic gastritis typ A, with gastric retention, Biopsy: medium chronic to low grade active Gastritis with mucosal atrophy and loss of parietal cells, metaplasia, and multiplication of enterochromafine cells
	04/28/2016	Colonoscopy	chronic illeitis, detached small intestine mucosa in colon, Biopsy: erosive Ileitis with regenerative epithelial transition, CMV PCR and staining positive, regular mucosa in colon biopsies
	05/11/2016	Intestinoscopy	severe enteritis (fig. 1D), Biopsy: erosive ileitis, polyclonal TCR pattern: no T-Cell Lymphoma
	09/14/2016	Intestinoscopy	severe enteritis, Biopsy: chronic, recurrent and persistent mucosal damage, erosive in parts
	10/25/2016	Intestinoscopy	severe enteritis with new stenosis 120cm aboral (fig. 1E), Biopsy: chronic, recurrent and persistent mucosal damage in biopsies taken from stenosis, dominated by ulcerations and reactive epithelial changes
	12/12/2016	Intestinoscopy	reduction of known subtotal stenosis decreasing sign of inflammation (fig. 1g), Biopsy: beginning epithelial regeneration, with in part intact glands and partially active inflammation
	Bloodwork	03/2016	anti-Gliadin antibody
		anti-Endomysium-antibody	negative
		anti-Transglutaminase-antibody	negative
03/29/2016		ADAMTS-13 activity	5%
		ADAMTS-13 antibody	66.0U/ml
		ANCA	negative
		dsDNA	negative
		C3	negative
		C4	negative
		Rheumatoid factor	negative
		ANA	positive without specifiv Subtype
		HIT 2 ELISA	negative
		Total IgA	1,5g/l (reference: 0,7-4 g/l)
04/08/2016	Antiphospholipid-Syndrom	negative	
04/16/2016	Herparin induced Thrombozytopenia type 2	negative	
07/25/2016	HLA DQ2 HLA DQ8	negative negative	
09/14/2016	Anti-HLA60-Ab	positive	

Virologic	09/27/2016	Autoimmune encephalitis	negative
	03/29/2016	Hepatitis B serology	HBV-Surface-AG, HBV-Core-Ab negative
		Hepatitis C serology	negative
		HIV serology	negative
		CMV serology	IgM negative, IgG 140 Units/ml
		VZV serology	negative
		HSV serology	negative
		Parvovirus B19 serology	negative
	03/30/2016	Stool PCR for Astrovirus	negative
		Stool PCR for Norovirus	negative
		Stool PCR for Rotavirus	negative
		Stool PCR for Adenovirus	negative
	05/03/2016	Serology and PCR for CMV	IgM negative, IgG >250 U/ml, 9960 IU/ml
	05/18/2016	Blood PCR for CMV	negative
	06/08/2016	Blood PCR for CMV	10,400 IU/ml
	06/15/2016	Blood PCR for CMV	negative
	07/06/2016	Blood PCR for CMV	negative
07/11/2016	Blood PCR for CMV	negative	
09/02/2016	Blood PCR for CMV	negative	
09/22/2016	Blood PCR for CMV	9 IU/ml	
09/30/2016	Blood PCR for CMV	578 IU/ml	
10/06/2016	Blood PCR for CMV	negative	
Radiological	03/2016	CT Thorax	lymphnodes of a maximum diameter of 1cm, subpleural consolidations
	03/2016	CT Abdomen	dysontogenetic liver cysts
	03/31/2016	PET CT	Pleural effusions, bone marrow activity
	04/18/2016	upper gastro-intestinal X-ray series	gastric retention
	05/26/2016	MRI Sellink	ubiquitary enhancement of contrast agent in stomach and small intestine with maximum in jejunal part (fig. 1A,B)
Bacteriological	09/18/2016	cMRI	Edema of the thalamic area
	03/30/2016	Stool culture for shigella	negative
		Stool culture for salmonella	negative
		Stool culture for yersinia	negative
		Stool culture for campylobacter	negative
Stool PCR for Clostridium difficile	negative		

	05/10/2016	Stool PCR for virulent Echerichia coli	negative
		Biopsy PCR for Tropheryma whipplei	negative
		Biopsy Immunohistochemistry for Mycobacterium tuberculosis	negative
Bonemarrow	09/22/2016	Aspirate and Trepanate	hypocellular bonemarrow aspirate due to azathioprin toxicity, normocellular bonemarrow trapanate
